

NERDY AESTHETICS!

Most rooms have a shelf meant for your books, folders, and mugs, so why not make it Nerd-ily aesthetic by creating that classic "lofi-girl" or "lofi-boy" look. Stack your books, headphones, cute little pencil pouch clustered neatly on top of each other to create a busy studious person's look! Using plants can also be the touch you need to make your spot complete, and using fake ones can relieve you of the stress of maintaining real ones!

LEGOS LEGOS LEGOS LEGOS

What funner way to decorate your room than by having Lego compartments?! Make every day a play day with Lego home decor, such as a Lego wall key chain holder, and building a Lego drawer!

BEEP. BOOP. BAHHP.

How about some decorations for my gamers? First thing first, we have to get some neon led lights to amplify everything! Cool signs or even just simple LED Strips really highlight cool Nerdy vibes! In addition to this, we should also consider rugs. In specific, some black light patterned rugs look really awesome when paired with LED lights! And lastly, don't forget to get a really cozy chair with good back support!

Lastly, are you wondering what else to put on your walls? How about some **Posters?**

There are so many types of posters from your major, to your school's logo, to your favorite TV shows! Just look at these **Savvy Nerdy Walls!**
